AT THE INTERSECTION OF TECH & FINANCE

BNY

OPPORTUNITY IN ALL DIRECTIONS

2027
BNY Summer Internship Program

INTRODUCTION

At BNY, our culture empowers you to grow and succeed. As a leading global financial services company at the center of the world's financial system we touch nearly 20% of the world's investible assets. Every day around the globe, our 50,000+ employees bring the power of their perspective to the table to create solutions with our clients that benefit businesses, communities and people everywhere. We continue to be a leader in the industry, awarded as a top home for innovators and for creating an inclusive workplace. Through our unique ideas and talents, together we help make money work for the world. This is what #LifeAtBNY is all about.

PROGRAM OVERVIEW

BNY Summer Internship Program is 8-10 weeks entry-level technology program that is designed to develop and retain high-potential talent. The goal of this program is to build a team of technology professionals who are prepared and positioned to contribute to BNY's technology strategy and initiatives. This program is an immense development and learning opportunity for students with a passion for Engineering.

PROGRAM HIGHLIGHTS

The Summer Internship program is an opportunity not only to learn and grow, but an experience full of diverse community connections, executive engagement, and memorable events. You unlock your full potential here! How? You're empowered to solve problems and brainstorm ideas in your own unique way.

Collaboration: BNY offers the opportunity to have a direct impact on a wide range of projects, and to create and deliver successful solutions to our clients through a collaborative team setting.

Mentorship: Support for career development and networking from an array of corporate leaders, such as executive mentors, peer mentors, and program managers

Learning & Development: Robust onboarding and training curriculum designed specifically for Internship program participants. Gain cross-functional skills by attending learning & development sessions designed by subject matter experts After successful completion of the program, high performing analysts are aligned to a technology team that would help them utilize and advance the skills acquired during the program
