Education

•Malaviya National Institute of Technology, Jaipur *2024 – 2028*
B.Tech in Electronics and Communication Engineering CGPA: 8.81

•Lawrence and Mayo Public School *2023*
Central Board of Secondary Education (CBSE) Percentage: 88.2%

Projects

•NyayaAI – AI-Powered Legal Document Analyzer & Advisory System *2026*
Python, Streamlit, LangChain, FAISS, Groq API, RAG

- Developed an AI-powered legal assistance platform that analyzes legal documents and provides simplified explanations, relevant legal information, and actionable guidance.
- Implemented a Retrieval-Augmented Generation (RAG) pipeline using LangChain, Hugging Face embeddings, and FAISS for context-aware legal information retrieval.
- Integrated Groq API to generate grounded legal responses and enabled semantic search across notices, FIRs, contracts, and other legal documents.

•DecisionIQ – AI-Powered Decision Intelligence Platform *2026*
React.js, FastAPI, MongoDB Atlas, Pandas, Scikit-learn, Gemini API, Chart.js

- Developed a full-stack platform that transforms raw datasets into actionable insights through automated processing, visualization, and AI-assisted analysis.
- Implemented FastAPI backend services, MongoDB Atlas integration, and Pandas-based data preprocessing workflows.
- Built a Scikit-learn-based analytics pipeline to identify feature importance and analyze data trends, while integrating the Gemini API to generate natural-language summaries, insights, and recommendations through interactive React dashboards.
